SKILLS

Languages:	Python, Java, SQL
AI / ML:	Scikit-learn, Regression Modeling, Feature Engineering, Predictive Analytics
Data Analytics:	Pandas, NumPy, EDA, Data Cleaning, Data Visualization
Backend & APIs:	FastAPI, RESTful APIs
Database:	MySQL
Core CS:	Data Structures & Algorithms, OOP, DBMS, Operating Systems
Tools:	Git, GitHub, Regex, Web Scraping, Salesforce Trailhead

INTERNSHIP

Data & Reporting Intern – Bitzure	May '24 – Aug '24
- Processed 25,000+ customer and business records through automated extraction workflows. - Built dashboards for campaign tracking and sales analysis. - Reduced manual reporting effort by nearly 60%. - Converted raw datasets into actionable business insights. Tech: Data Analytics, Web Scraping, Data Cleaning	

PROJECTS

InternshipIQ – AI Internship Aggregator [Link]	Jan '26 – Present
- Aggregated 10,000+ internship listings from 15+ sources using automated scraping pipelines. - Orchestrated FastAPI services powering search, filtering, and recommendations across thousands of opportunities. - Formulated skill-matching logic covering 100+ technologies and internship role categories. - Streamlined validation workflows, improving data quality across 10,000+ internship records. Tech: Python, FastAPI, Pandas, Regex, Requests, MySQL	
InternshipIQ – Surge Price Prediction System [Link]	Nov '25
- Trained regression models on 10,000+ ride records to forecast surge pricing trends. - Refined 20+ ride attributes through preprocessing, feature engineering, and outlier treatment. - Benchmarked model performance using MAE, RMSE, and R2 across multiple algorithms. - Investigated demand patterns influencing surge fluctuations across locations and peak hours. Tech: Python, Pandas, NumPy, Scikit-learn	
Java Book Management System [Link]	May '25
- Crafted a library management system supporting 500+ books and inventory operations. - Leveraged Java Collections Framework for efficient storage and retrieval of records. - Integrated file persistence enabling reliable management of hundreds of transactions. - Modularized application logic into reusable components, improving maintainability and scalability. Tech: Java, Collections Framework, OOP, File Handling	

TRAINING

Data Structures & Algorithms using Java	Aug '25
- Covered Java fundamentals, DSA concepts, and algorithmic problem solving. - Practiced implementation-focused exercises and mini-projects.	

CERTIFICATIONS

Oracle AI Foundations Associate – Oracle	May '26
Earned 58 Salesforce Trailhead Badges – Trailblazer Profile	Jan '26
Introduction to Hardware and Operating Systems – IBM	Sep '24
Fundamentals of Network Communication – University of Colorado System	Sep '24

ACHIEVEMENTS

Official Contributor – GirlScript Summer of Code 2026 (GSSoC'26)	May '26
Rank 1 among 200 teams in University Hackathon “Techlingua”	Feb '24

EDUCATION

Lovely Professional University	Aug '23 – Present
B.Tech, Computer Science and Engineering	CGPA: 8.0
Jay Tech International Senior Secondary School	2020 – 2021
CBSE Class XII – 93%	
Jay Tech International Senior Secondary School	2018 – 2019
CBSE Class X – 89%
